## Light Duty Level 2

### Host Company Requirements

The California Tow Truck Association would like to thank you for your willingness to host a Light Duty Level 2 class at your facility. We have provided the information below to assist you in hosting a successful class.

#### Overview

Light Duty Level 2 classes are a one day course. In order to create the least amount of disruptions to tow companies, these classes are usually held on weekends consisting of classroom instruction. Host companies must provide a classroom for instruction and testing. Classroom facilities should be adequately heated or cooled depending on the weather.

***\*Host companies are expected to be CTTA members in good standing with sufficient staff to accommodate students and help the instructor facilitate the class.***

#### Capacity

The typical maximum number of students for a Light Duty Level 2 class is between 25 to 30 students. You must provide the office with a maximum amount of students that your facility can accommodate.

#### Meals

The host company is required to provide lunch. Please contact the CTTA office for a head count two to three days prior to the class or refer to the roster. *Host companies are reimbursed based on actual receipts for expenditures up to \$15 per every paid student.*

Reimbursements are issued by the CTTA office. Refreshments such as coffee, soda and bottled water must also be provided on both days of training. Snacks and breakfast pastries are recommended but are not required. In order to save money while providing a welcoming environment, many host companies choose to barbecue onsite.

#### Complimentary Registrations

Host companies receive two complimentary registrations. Please submit a completed registration for the complimentary registrations. The CTTA member registration fee will be applied to additional drivers.

#### Registration

Registration is handled through the CTTA office. Registration forms can be downloaded from the CTTA website at [www.ctta.com](http://www.ctta.com). Onsite registration is NOT permitted!
